State Support Teams Regions 2, 3, 4, 5, 7, 8, & 9,**

Registration Information Coming Soon!

Keynote Address by Melissa McClain

Melissa McClain, a Kent State University graduate, is the Community Education Program Coordinator at Akron Children's Hospital. Her keynote address, "Increasing Developmental Assets and Building Resiliency in Children", will define the 40 Developmental Assets and provide tools to build resiliency for children.

Melissa will also conduct a breakout session entitled "Intro to Trauma", which will cover the basics of trauma, what types of trauma students may face, and how trauma can affect a student's physical, emotional, and cognitive abilities. Both sessions will offer strategies to strengthen social emotional skills to improve career readiness for the students we serve.
